

## RNL Design “TAG Teams” Project

RNL Design, a prominent and highly respected Architectural, Engineering, and master planning firm headquartered in Denver, has joined forces with The ACCESS Group (TAG) on a project for a Fortune 500 Aerospace customer. RNL and TAG are developing a strategic facilities master plan for the highly sophisticated client. The project involves addressing both the long range strategic issues associated with the multi-site and multi-process oriented company as well as pursuing the ongoing process and procedural opportunities within the operation.

RNL is headquartered in Denver, Colorado with additional offices in Phoenix and Southern California. TAG Partner Charles Hagood stated, “RNL has a wonderful reputation in not only the Denver area but in the entire Mountain and Western region of the U.S. Their efforts are evident throughout both the area skyline and the industrial settings of the region” RNL has a wealth of experience in a number of markets including manufacturing, churches, public institutions, administrative operations, and many others.”

The TAG/RNL project began in November of 2003 and is expected to be completed in the spring of 2004.
